Board of Public Welfare

Auditor's Report

This is to certify that I have examined the books and accounts of the Board of Public Welfare of Wendell for the year ending December 31, 1950 and found them correct.

LEOLA B. CAREY,

Auditor

Report of Veterans' Benefits Department

I herewith submit the annual report of this Department for the year, 1950.

The cost to the Town for Veterans' Benefits in 1950 is \$507.34. The cost in 1949 was \$626.24.

The reimbursement from the State received during 1950 was \$384.98. There were three cases aided during 1950—two veterans' benefits and one war allowance. There are no cases active and none pending as of December 31, 1950.

Respectfully submitted,

LUTHER W. HORTON,

Agent

Department of Veterans' Service Eastern Franklin District

ORANGE, WARWICK, WENDELL AND NEW SALEM

To the Honorable Board of Selectmen
Wendell
Massachusetts

Gentlemen:

I herewith submit the annual report of this Department for the year, 1950.

Due to the world situation during the past year, the volume of business has increased. The work done in connection with the Draft Board—registrations, changes in status, and inquiries—has increased immensely. In view of the present state of affairs this work will undoubtedly increase in the near future.

The case load on dependent pension claims, out-patient treatment and hospitalization has been more than ever before. The Veterans' Administration budget still does not allow a contact representative to personally visit this office. However, some work is done through the Fitchburg office by phone and correspondence. The training officer for disabled veterans meets these veterans at this office by appointment.

The changes in laws affecting veterans which are being made by both State and Federal legislation are creating extra study and work.

A recapitulation of cases serviced appears as follows:

Type of Service	No. of Contacts
Veteran personal contacts	97
Phone contacts	101
Veterans' benefits application and information	33

General information and advice	86
Pension application and information	23
Correspondence	44
Out-patient application and information	9
Photostats	10
Hospital application and information	7
Education application and information	9
Tax information	15
Home visits to veterans	5
Insurance application and information	8
Burial application and information	3
Loan application and information	7
Draft registration and information	10

Respectfully submitted,

LUTHER W. HORTON,

Director

To whom it may concern:

This is to certify that we, the undersigned Selectmen and Board of Health of Wendell, have closed our books as of December 31st, 1950. We report that we have issued orders on the Town Treasurer to the amount of \$69841.44. An adjustment necessary on a payroll after it had left our hands, of \$35.70 by cancellation, makes our total as of January 1st, 1951 in the amount of \$69805.74.

Respectfully submitted,

RALPH M. CAREY
DANIEL W. FIELD
GLENN O. ELLIS

Selectmen and Board of Health of Wendell

Auditor's Report

To whom it may concern:

This is to certify that I have examined the books and report of the Selectmen and Board of Health and believe them to be correct.

LEOLA B. CAREY,

Auditor

Report of the State Audit

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

State House, Boston 33

June 30, 1950

To the Board of Selectmen

Mr. Ralph M. Carey, Chairman
Wendell, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Wendell for the period from April 6, 1949 to March 25, 1950, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG,

Director of Accounts

FXL:ELD

Mr. Francis X. Lang
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Wendell for the period from April 6, 1949, the date of the previous examination, to March 25, 1950, and submit the following report thereon:

The records of financial transactions of the several departments receiving or disbursing town funds were examined and checked.

The records of selectmen's licenses issued were examined and checked with the records of licenses granted and the payments to the treasurer were verified.

The surety bonds of the town officers required to furnish them were examined and found to be in proper form.

The books and accounts of the treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the records of the departments making payments to the treasurer and with the other sources from which money was paid into the town treasury. The payments were checked with the selectmen's warrants authorizing the disbursement of town funds and with the classified record of payments.

The cash book additions were verified, and the cash balance on March 25, 1950 was proved by actual count of the cash in the office and by reconciliation of the bank balance with a statement furnished by the bank of deposit.

The savings bank books representing the investment of trust and investment funds in the custody of the treasurer were examined and listed and the income was proved. It was noted that the savings bank books representing the investment of the Town Farm Fund have not been presented at the bank of deposit since 1947, and it is recommended that all such books be presented annually.

The records of payroll deductions for federal taxes and the county retirement system were examined and checked. The payments to the Collector of Internal Revenue and the County Retirement Board were verified, and the balance in the general treasury on March 25, 1950 was proved.

The tax title records in custody of the treasurer were examined and the outstanding accounts were listed and proved. It was found that the assessors had failed to levy 1949 taxes on three parcels of land held under tax titles.

The books and accounts of the tax collector were examined and checked in detail. The tax accounts recommitted and all subsequent commitment lists of poll, personal property, and real estate taxes, as well as motor vehicle and trailer excise, were audited and checked with the assessors' warrants committing them for collection. The cash book additions were proved, the recorded collections were compared with the payments to the treasurer, the abatements were checked to the assessors' record of abatements granted, the outstanding accounts were listed, and the cash balance on March 25, 1950 was proved by actual count.

In order to verify the outstanding accounts, notices were sent to a number of persons whose names appeared on the books as owing money to the town, and from the replies received it appears that the accounts, as listed, are correct.

A detailed list of the outstanding taxes was drawn off and given to the board of assessors for the purpose of preparing the recommitment warrants to the new tax collector.

The receipts of the town clerk for dog and sporting licenses were checked with the record of licenses issued. The payments to the Division of Fisheries and Game and to the town treasurer were verified, and the cash on hand on March 25, 1950 was proved by actual count of the cash in the office.

The records of charges of the welfare department were examined and checked, the payments to the treasurer were verified, and the outstanding accounts were listed and proved.

The records of the sealer of weights and measures were examined and checked, the payments to the treasurer being verified.

The appropriations were listed from the town clerk's record of town meetings and the amounts voted were compared with the aggregate appropriations raised by the assessors in the computation of the 1949 tax rate. It was found that the amount which was estimated by the assessors in 1949 to be received from sources other than taxation and which was used as a deduction from the amount raised by taxation was \$2,290.51 in excess of the sum actually received in 1949. Care should be exercised in determining the amount of estimated receipts as a deficit in this account affects the surplus revenue of the town.

The records of the librarian on account of fines collected and miscellaneous sales were checked and the payments to the treasurer were verified.

The records of charges for the use of town-owned highway equipment were examined, the collections were checked, and the payments to the treasurer were verified.

Ledger accounts were compiled, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on March 25, 1950.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's cash, summaries of the tax and departmental accounts, as well as tables showing the transactions and condition of the trust and investment funds.

For the cooperation extended by the several town officials while engaged in making the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts

Report of Superintendent of Schools

To the School Committee and Citizens of Wendell:

Finances and a large enrollment continue to be the major problem of this as well as all schools in the state. Being thoroughly aware of the tax burden on everyone, the school budget is at an absolute minimum consistent with a reasonably high degree of education. The proposed budget shows a slight decrease from last year. In view of the facts that the Academy enrollment will probably increase next year and that neighboring budgets almost without exception will be up on an average of 10%, this is a remarkable achievement.

The problem of overcrowding in the school house still remains. A teacher who has several grades and a large enrollment naturally cannot do as good an educational job as a teacher who has fewer grades and fewer pupils. The Town must decide whether the benefits to be derived from providing an additional classroom and teacher will be sufficient to justify the added expenditure.

Again this year certain improvements have been made in the school plant. Reinforcements were placed under the floor, a new porch was placed over the crumbling cement of the old one, broken treads on the basement stairs were replaced, and toilet partitions were installed. The Parents' Group purchased and erected the picket fence. Present plans provide for painting the building this summer. If labor costs continue to mount, it may be that under the present budget this would have to be done by volunteer labor.

The building inspector continues to point out that proper ventilation and heating in the toilet rooms as provided by law for such buildings, does not exist in the Wendell school. We were granted our building certificate last year only with difficulty. Serious consideration must be given to remedying these two factors if we are to continue to receive the necessary building permit each year. Several contractors advised against spending any money on the present heating plant as they feel it is not adequate and is reaching the point where the expenses of maintenance repairs would make such expenditures unjustified. The eventual solution would seem to be the installation of a modern oil burning furnace which would heat the toilet rooms as well as the classrooms.

A look at the net cost during the past year in comparison to the year previous, shows a more favorable net cost per dollar. The reimbursements for 1951 will presumably remain about the same as last year.

A constant attempt has been made to raise the level of instruction in the school and I believe that the present level of instruction is very good. One factor that makes proper instruction difficult is that of constant absenteeism. School authorities have hesitated to bring parents of children who are absent without cause into court as they are entitled to do under the law. However, the time seems to be rapidly approaching when this will be necessary unless certain parents themselves improve this situation.

I wish to express to the School Committee, Citizens and Staff appreciation for their continued cooperation.

Respectfully submitted,

ROBERT J. JARVIS,

Superintendent of Schools

Report of the School Physician

Robert J. Jarvis,
Superintendent of Schools,
Wendell, Mass.

Dear Sir:

The following is a summary of the defects found at the annual examination of pupils in Wendell:

Nutrition 1; Posture 16; Teeth 35; Tonsils 15; Skin 5; Nails 15; Feet and Spine 6.

Many of these are reported in the same child year after year. Parents should realize the advantage of learning about the defect, and should take steps to protect and improve the health of the child.

Respectfully yours,

KIRKE L. ALEXANDER, M. D.,

School Physician

Report of the Public Health Nurse

COMMENTS:—

On July 1st, 1950, Mrs. Joyce Mathieu resigned her position to go to Oregon, so that the work was taken up again on August 21, 1950 by Mrs. Ellen P. Rieg, R. N., the present school nurse for the Erving Union.

Another important change which took place on July 1, 1950 was that the Erving School Union, including the Town of Wendell, took over the work which the Franklin County Red Cross has been doing for many years.

Respectfully submitted,

ELLEN P. RIEG, R. N.,

School Nurse

Read and approved by:

The Wendell Nursing Activities Committee
Edith F. Hartjens, Chairman

Report of the Art Supervisor

Dear Mr. Jarvis:

I am pleased to submit my third annual report as art supervisor for the Erving Union.

Judging from the quality of the work now being done on all grade levels it is safe to say that progress is still continuing, especially in the field of water color painting. I am also gratified with some of the results of problems involving third dimensional manipulation and believe that more work along this line will mean a better balanced art program.

Each year it has been my aim to introduce a few new art techniques so that over a period of time the students' acquaintance with a variety of media and methods will be increased. A wide range of art information is, I believe, especially desirable, since the majority of pupils will probably take little active interest in creative art once their school days are over. It has been a source of a great deal of satisfaction to realize that some of these techniques have been so interesting to children that they are using them of their own volition outside of school hours. Making children aware of the fact that art, which they will not practice as a profession, will nevertheless be around them, would be a major achievement and a goal toward which our teaching should be aimed.

Success of an art program is dependent largely on the classroom teacher and to all of them, who have been so willing to listen to my suggestions as to procedure and methods, I am extremely grateful. I should also like to thank you, Mr. Jarvis, and the members of the school committee for your continued support of the art program.

Respectfully submitted,

RICHARD E. GABEL

Report of the Handwriting Supervisor

Mr. Robert J. Jarvis
Superintendent of Schools
New Salem, Massachusetts

My dear Mr. Jarvis:

I am pleased to submit the following report on the operation of the handwriting program in the Wendell schools for the school year of 1949-1950.

In the initial handwriting tests administered to your pupils in September 1938, 6.6% received a grade of "A" (Excellent); 16.6% received a grade of "B" (Good); and 76.6% scored less than "B." In the tests administered in June, 1950, 76.7% of your pupils received a grade of "A"; 11.6% received a grade of "B"; and 11.6% scored less than "B". Handwriting certificates were awarded to 100% of your graduates.

During the school year we graded approximately 550 formal and 1650 informal handwriting samples for your pupils. A formal test was administered monthly and a report was furnished each teacher giving a careful diagnosis of the handwriting of each pupil in her room.

We furnished the following instructional materials: Monthly teachers' outlines, pupil folder outlines, room motivation certificates, handedness tests, individual handwriting certificates, for pupils who qualified, monthly and term envelopes, seals, etc.

My supervisors join with me in expressing our appreciation for the splendid cooperation we have received from you and your teachers at all times. We are very pleased with the results obtained in your schools.

Sincerely yours,

W. L. RINEHART,

Director

Report of the Music Supervisor

Dear Mr. Jarvis:

I have made the required number of visits to the Wendell schools, in much better going than old Nature gave us two years ago, when I was grateful to the sand truck and the snow plow, for pushing and pulling me up the icy hills to the school house.

We are making good use of the rhythm band again, in the Primary room, as that is the age for activity in music. We are somewhat cramped for room, to do much moving around with so many pupils to each room, but we do what we can.

Unfortunately our Magnavox, which the children bought last year, assisted by the Grange, went out of commission late in the Fall, and we are still waiting to have it back from the repair shop. Meanwhile the small machine which I gave the schools can be used.

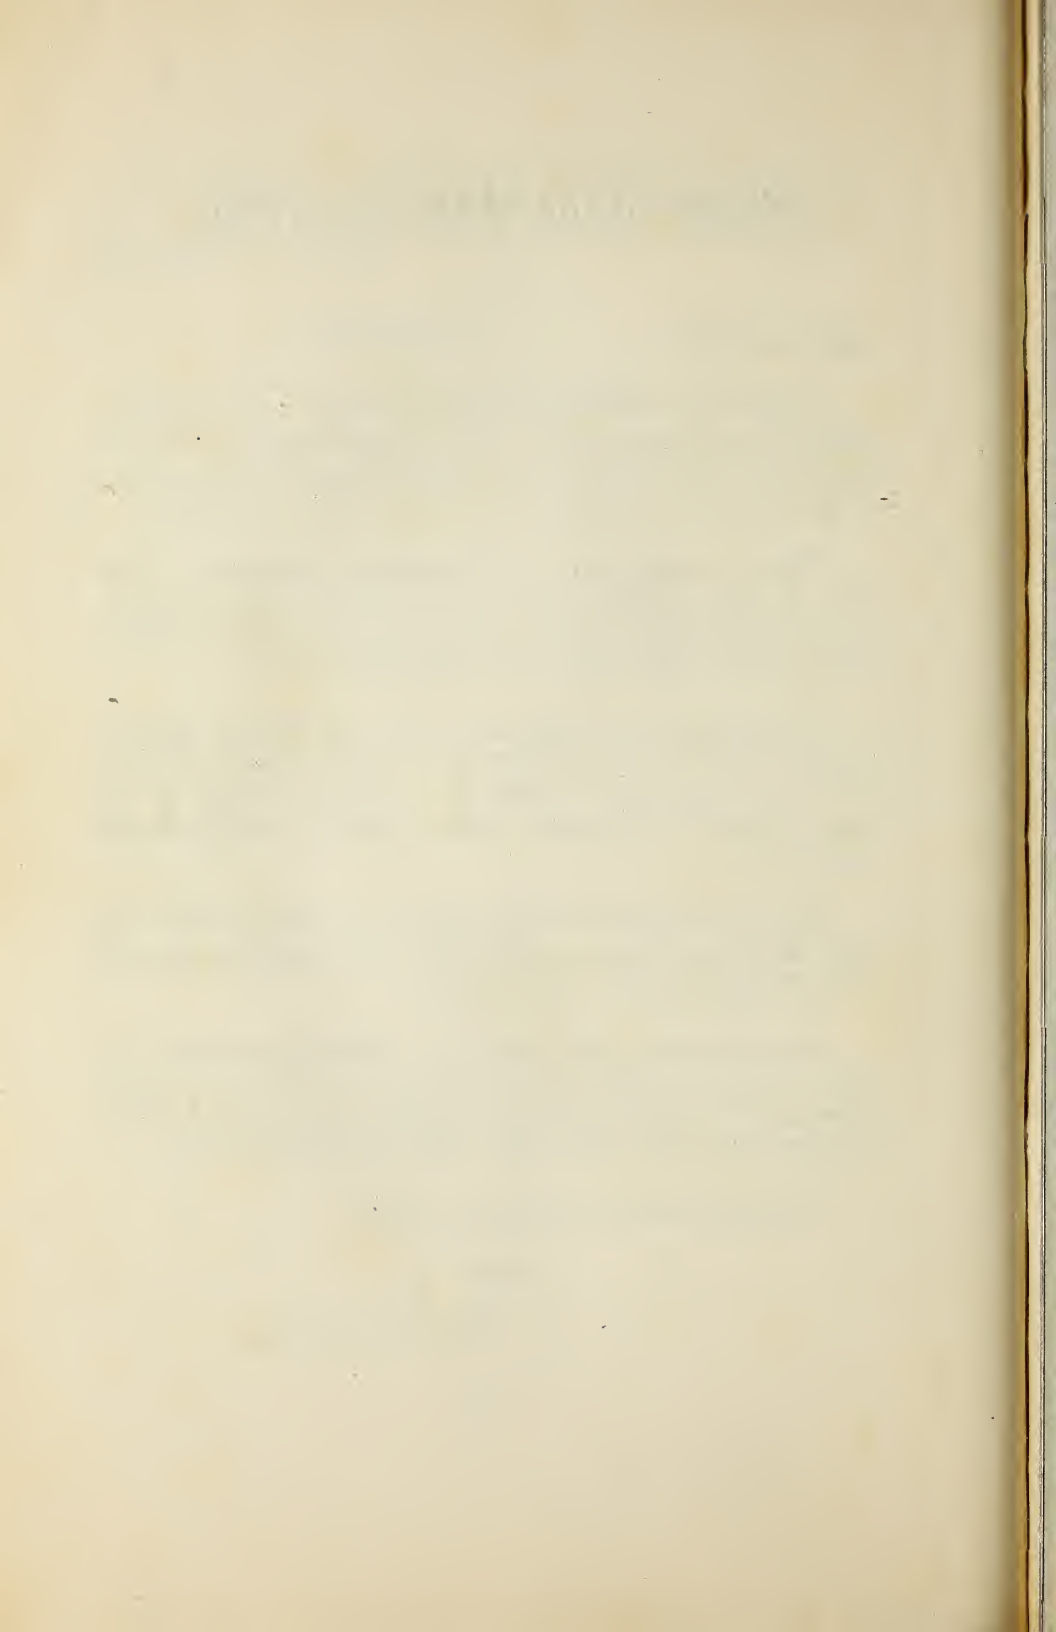

Our music books are about sung out, being of very old vintage, but we are supplementing with folk songs and popular patriotic which go well with the times.

We need a good used piano next. I have "my eye on" one which may be a possibility for another year. I believe a friend of mine gave the school the old square piano now in use, and which has been there many years, and which needs to be retired.

We are all enjoying our singing together.

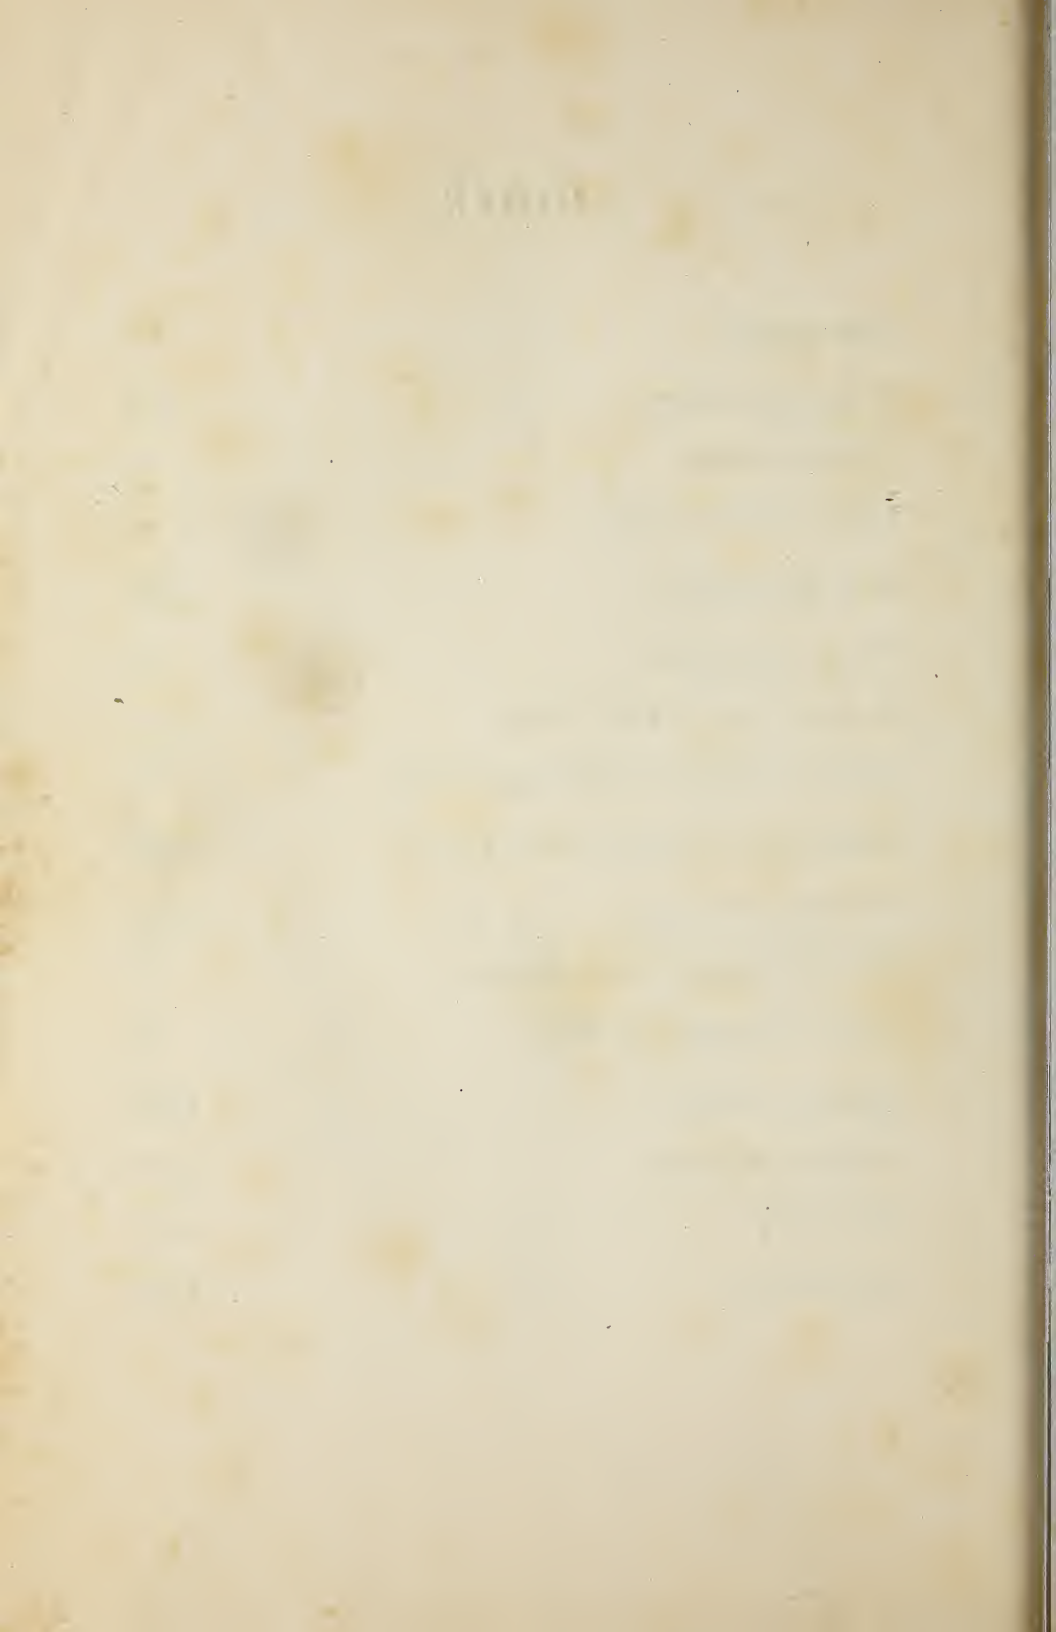

Very truly,

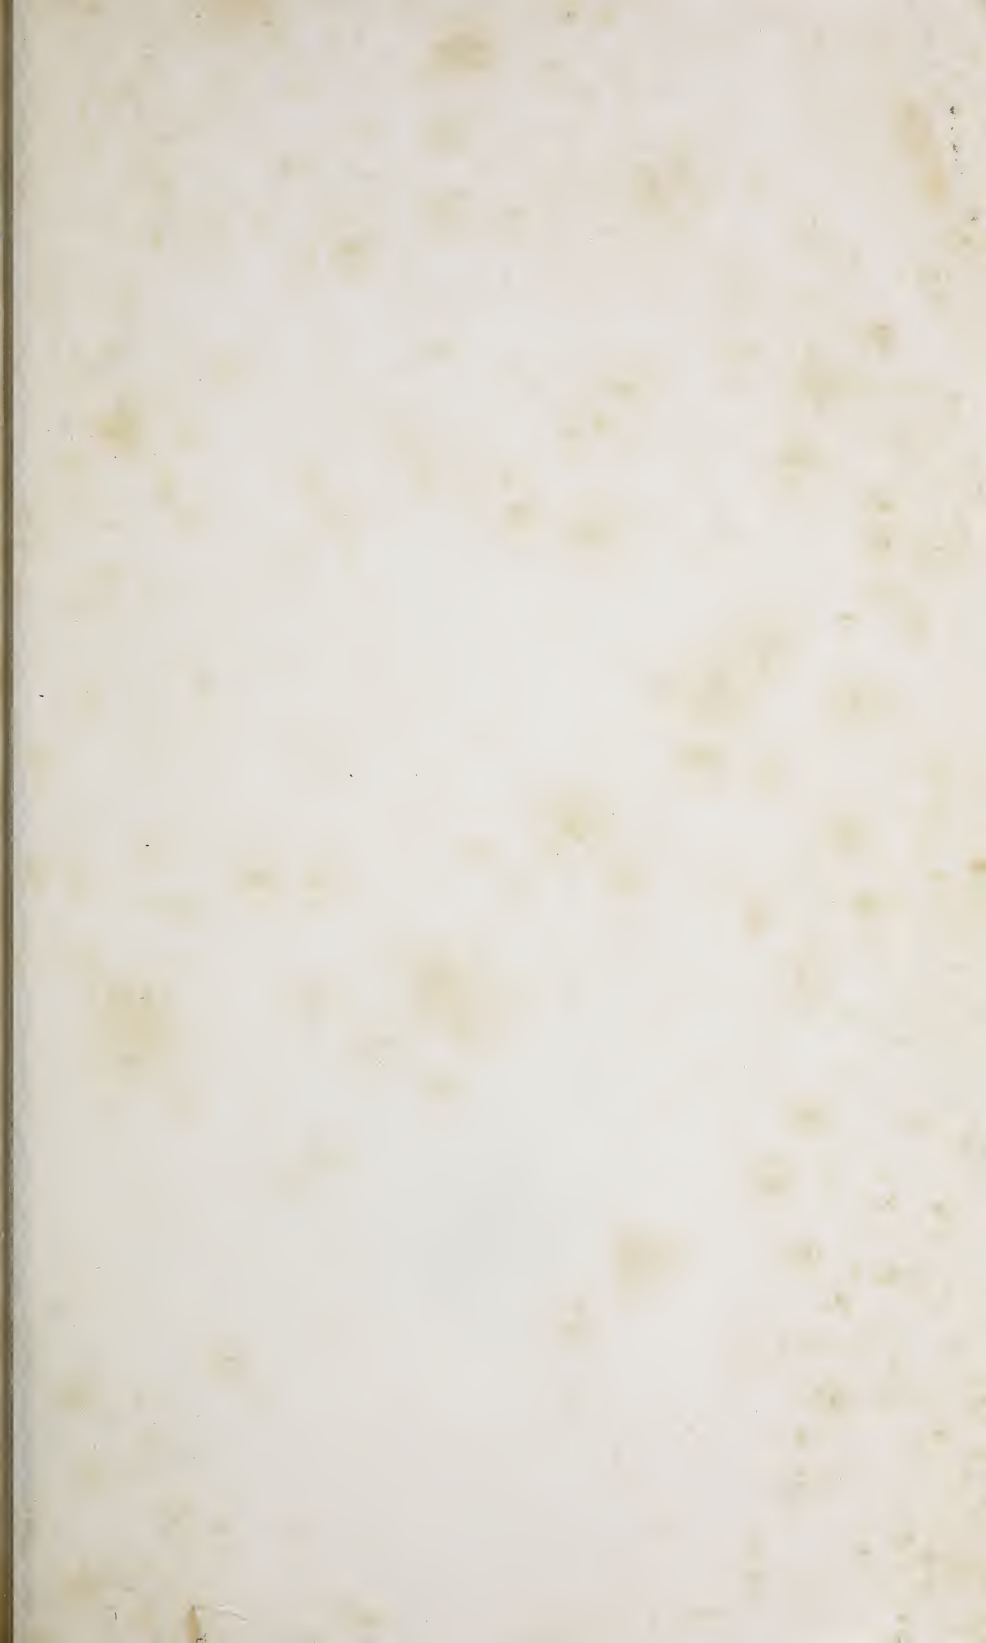

MYRTLE MacKAY
